

Autumn Encounters

An Activity Update from
Peniel Bible Conference
September 2020

Camp Projects

Maintaining the grounds, painting the outside of the office and Restaurant, and renovating the motel bathrooms have been the focus of our summer maintenance work. We are still in the process of renovating three motel bathrooms. We have installed new toilets, sinks, and showers in two of the units. The need for this work has been long standing, as the dated plumbing has allowed for dangerous water temperature fluctuations for our guests, but the renovations became mandatory as the subfloors were uncovered and found to be rotten and unstable. New paint, floors, and plumbing is such an upgrade for these units. Our donors and volunteers have made this project possible.

Thank you so very much!

TEEN M@TteRs (Teens Meet @ The Restaurant)

Once we got the go ahead and clear safety guidelines to have our teens back on campus, we did so! We hosted a pool party and an outdoor movie night. We filled to our covid capacity each time, and our counselors shared messages around the campfire of courage and hope in these uncertain times.

ENCOUNTER KIDS

Finally, we were able to launch our program for 4th-6th grade students! We gathered 15 youth on campus for swimming, crafts, games, a cookout, and a wonderful message about not shrinking back from who God has called you to be and for what He has called you to stand.

We are eager to continue both ministries through the fall and winter if our distancing guidelines allow us to gather indoors safely.

Fundraising Update

We have raised the money to match our matching grant and then some! We are now the proud new owners of a 6-wheel ATV with a plow and trailer. It will make winter snow removal and summer maintenance so much easier. We are so blessed!
